# PARKL USER GUIDE

This document aims to intorduce the use of the Parkl system in the Budapest One car park.

46

## **FIRST STEPS**

#### Download the app

First, download the app. Parkl is available for both <u>Android</u> and  $\underline{iOS}$ .

## Registration

After downloading and installing the app successfully, create a registration in Parkl. Registration can be completed in a few minutes.

Prepare the required data for registration:

- Email adress
- Number plate
- Phone number
- Bank card details

#### Bank card registration

The SimplePay system checks and charges the card with a test payment of 100 HUF. If the charge is successful, the amount is immediately refunded.

## **DOWNLOAD THE PARKL APP**

App Store

# Parking in the Budapest One car park

## Start parking with instant parking

3

Instant parking is available in the Budapest One car park, allowing users **to enter and exit the car park automatically**, without even having to take out their mobile phone. How to set up instant parking?

- On the **Settings/Cars** page of the app, you need to **turn on INSTANT PARKING** and enter the correct license plate number.
- Once you are done, each following arrival, the barrier will automatically open, and parking will start thanks to **license plate recognition.**

## Start parking with opening by phone

In addition to instant parking, you can also use the app to open the barrier:

- In the map view, click on the Budapest One Car Park icon.
- Then click on "**Start parking**". After pressing the button, the system will present a list of entrances to the car park. From this list, select the entrance you wish to enter via the barrier.
- You can enter via an app, by standing in front of the gate and clicking on the "BEJÁRAT" button, or automatically with instant parking and license plate recognition.

Which ke Make sure yo	y code is displayed on th ur are at the right gate and re- the garage! Happy parking!	<b>1e gate?</b> ady to enter
	Bejárat	

## Stop parking

You can check the elapsed time and the estimated amount at any time on the parking in progress screen.

- To finish parking, click the Parking details/End parking buttons at the top of the screen when you are at the exit barrier.
- To open, select the "KIJÁRAT" button. If you use instant parking, just wait until the gate opens. The app will send you a notification after exiting the car park.
- Payment is made automatically with the registered card. We will send you a receipt of your parking by e-mail.

## WE WISH YOU A GOOD PARKING!
